

A modern, multi-story house at night, illuminated from within. The house features a prominent glass facade on the upper levels, revealing interior spaces with furniture and lighting. The ground floor is supported by concrete pillars, creating a covered car garage area where several cars are parked. The upper levels have balconies with glass railings and some greenery. The house is surrounded by lush trees and landscaping, with some plants in the foreground. The sky is dark, suggesting dusk or night. The overall aesthetic is contemporary and sophisticated.

Where Your Car Collection Becomes Interior Design

The project is delivered with a private car elevator that provides direct access to the residence, allowing vehicles to be displayed and parked within the living room gallery.

This distinctive feature transforms the space into a true automotive showcase, making it the perfect setting for car collectors who appreciate design, exclusivity, and the art of fine automobiles.

Pedestrian bridge over the creek **5 minute walking distance from Provenza**

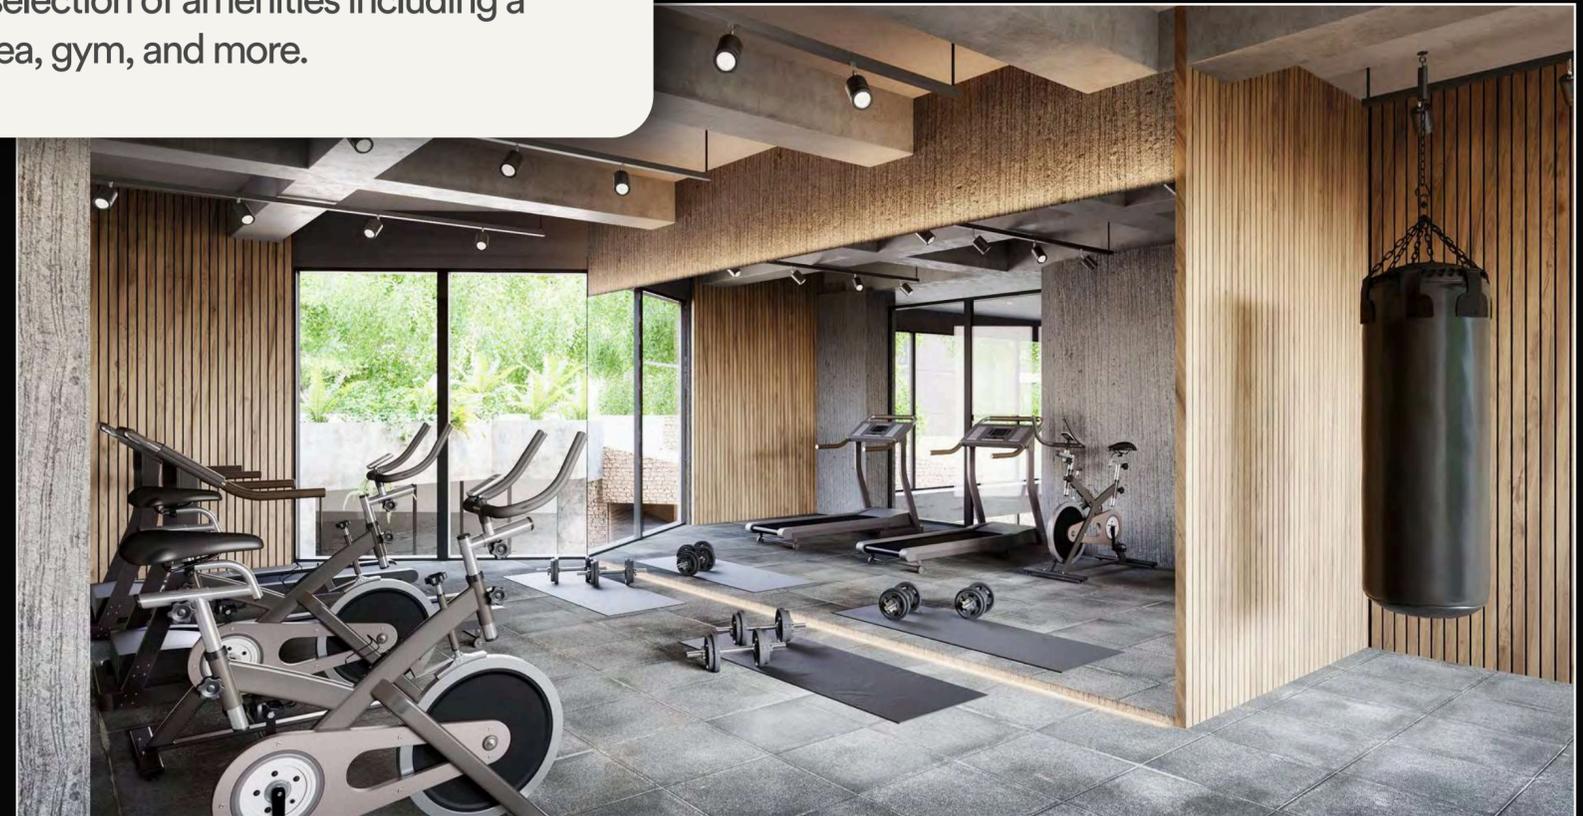

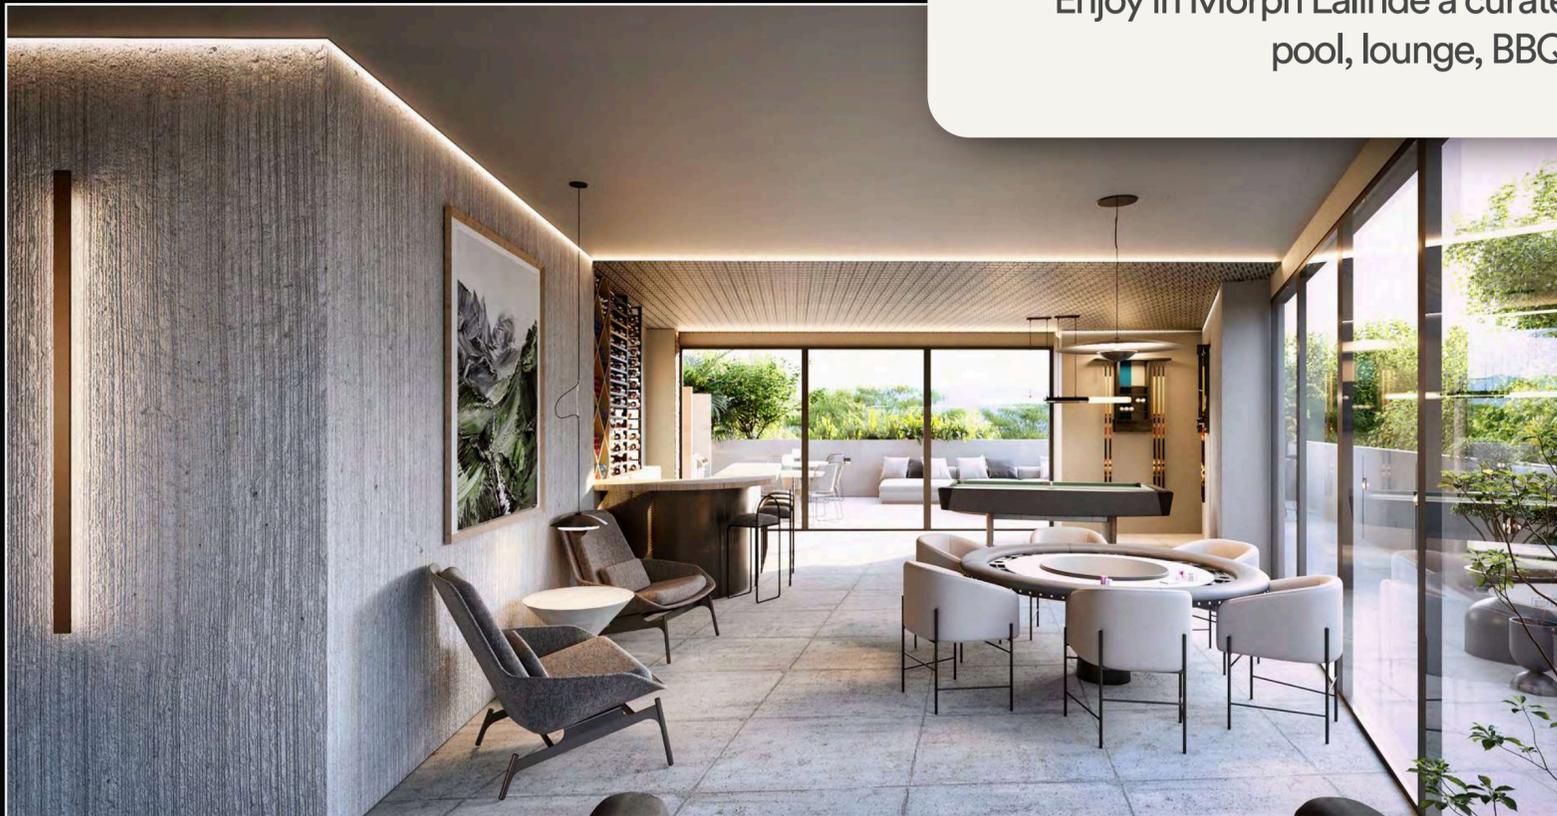

As part of its urban design, the project will feature a pedestrian bridge crossing a natural creek, connecting the property directly to the main street of El Poblado.

This unique pathway blends nature with city living, creating a serene walking experience while placing you just minutes away from the vibrant energy of Provenza.

World-Class Amenities

Enjoy in Morph Lalinde a curated selection of amenities including a pool, lounge, BBQ area, gym, and more.

Construction Now Underway

This exclusive project in El Poblado is moving forward with solid progress, bringing its contemporary vision to life. Designed for modern urban living and smart investment, Morph Lalinde is taking shape today as one of Medellín's most promising residential developments.

Estimated Delivery Time Spring 2028
